# Senior Wellness Check

Unfortunately our precious pets are not able to fully communicate how they feel... and are not able to tell us about underlying niggles. Owners can easily miss the signs of age-related diseases, where early detection is key. So we are here to help!

**That's why we recommend senior screening for all pets 8 years of age and over. The earlier we can detect disease or pain, the quicker we can treat your pet's symptoms and get them back on the road to great health!**

Our Senior Wellness Check screens for all of the following:

-  **DIABETES**
-  **LIVER DISEASE**
-  **UNDER/OVERACTIVE THYROID**
-  **KIDNEY DISEASE**
-  **DENTAL DISEASE**

## Senior Wellness Inclusions

**CONSULTATION** with full health exam & results analysis
